

HAPPENING IN YOUR CITY

AUBURN POLICE

PUBLIC WORKS

With the days getting longer and the children of Auburn out of school we want to impress upon you the importance of staying aware of your surroundings while driving around the City.

It is important that we drive with care around the City to protect ourselves and protect those out and about enjoying the warm weather and staying outside later into the evening.

We also want to make sure everyone practices safety when it comes to celebrations on and around July 4th. It is important that we are careful and vigilant about firework and grill safety.

Ensure if you are shooting off fireworks they are in the most open area possible and away from homes and potentially dry wooded areas. It is also important to ensure our pets are safe and secured, preferably indoors, while fireworks are being used.

While you are grilling out you also need to be careful to use your grill properly and away from any wooden structures overhead like a deck. Make sure your grill is turned off after use and that if you are disposing of charcoal it is cool so it cannot spark a fire.

If we pay attention to our surroundings and use good judgement we can ALL have a happy and safe 4th of July and a fruitful and fun summer!

You may have seen some trucks around the City with this logo on the side:

Xylem specializes in valve assessment and rehabilitation, has more than 20 years of experience at over 300 utilities across North America and has successfully serviced more than one million valves, including over 65,000 large valves.

They have been working diligently in the City of Auburn since April and should be finished in early July.

Their work will ensure the citizens continue to have access to good clean water with fewer service interruptions.

With their help and our own water department, our water services will continue to get better for the citizens of Auburn.

MAYOR'S MINUTE

Mayor
Rick Roquemore

I have heard the comments from many of our citizens about the storm sirens in the City of Auburn. Unfortunately, it is not cost effective to get these sirens up and running as they were hard wired into the former Police Station on 4th Ave.

We are partnering with Barrow County to be able to utilize their emergency warning system. This system places phone calls, emails, and texts to all of those enrolled whenever there is an emergency in Barrow County or the City of Auburn. The City will be able to alert Auburn Citizens specifically of any emergency and you will also receive Barrow county alerts like those for a severe storm.

Utilizing this system will better improve the accuracy and depth of information getting to our citizens. See below on how to get yourself and your loved ones signed up for this service.

EMERGENCY ALERTS

To sign up for the Emergency Alert System you can go to this address or scan the QR code at the bottom of this page.

You can also sign up by simply texting **BarrowCoGA to 38276**. It is that simple. After enrolling you will receive alerts for myriad of potential emergencies including:

- City of Auburn Emergency Alerts
- Barrow County Road Alerts
- Public Education
- General County News
- Weather Alerts

You can also download an app from the App Store and Google Play Store.

When you sign up you can also manage which notifications you want to receive and how you would like to receive them.

We believe partnering with the Barrow County Alert System will be beneficial to all of our Citizens and help improve the knowledge and safety of Auburn citizens should an emergency occur.
